OUR VISION

To be the Middle East's leading sustainable investment beacon, driving excellence and innovation in diversified sectors, and the preferred partner to our clients. With a discerning focus on sustainability, we aspire to set unparalleled standards in managing natural resources, forging impactful partnerships, and building a legacy of responsible growth.

OUR MISSION

To actively shape the landscape of sustainable investment within the Gulf region. Our focus is on building and managing tangible, impactful businesses that contribute to preserving resources and growing natural capital sustainably. Through collaborative teamwork and a commitment to integrity, we aim to transform innovative practices into green and scalable solutions. Our approach is rooted in responsible stewardship of resources and the pursuit of circularity in our operations. This commitment not only furthers economic development but also ensures our contributions towards a sustainable future for the communities we serve.

OUR VALUES

We take pride in our values as a company as we strive for success.

OUR STRENGTHS

1 | INTEGRATED MANAGEMENT

The importance of integrated management within the group is seen through the success of our ongoing projects, which ensure satisfactory results for customers and partners. The clear structure of Mawarid Holding Investement contributes to the group's technical and operational expertise and ensures the availability of both the administrative and technical staff to maintain productivity to work in accordance with the plans and strategies adopted.

Mawarid Holding Investement has the necessary capabilities to carry out infrastructure work, planning, and design. Also, our light and heavy fleet equipment have facilitated operations on work sites. The group is always interested in sustaining natural resources and recycling operations, which include the recycling of irrigation pipes and agricultural waste.

2 | POLICIES AND PROCEDURES

In accordance with contractual frameworks, Mawarid Holding Investement adopts a set of detailed and structured internal policies and procedures related to administrative work. These processes spread the culture of outstanding performance and motivate individuals to be productive. In addition, the group constantly strives to introduce and develop modern technology that is suitable for business development to ensure the continuous and systematic training of our staff.

3 | DEVELOPMENT AND RESEARCH

The presence of a research and development department, which includes a group of experienced and highly qualified professionals, has contributed to the continuous development and modernisation of the group. The Research and Development Centre contributes to the research on plants, forests, wildlife, water, and alternative energy; the centre also reviews the best international practices and applies them where appropriate.

OUR SUBSIDIARIES

BARARI NATURAL RESOURCES LLC

براري للموارد الطبيعية
BARARI NATURAL RESOURCES

Established in 2007, Barari Natural Resources (“Barari”) was born out of the ‘greening the desert’ legacy of the founding President of the United Arab Emirates, His Highness Sheikh Zayed bin Sultan Al Nahyan.

Barari is focused on the sustainable utilization, economic development, and sustainable management of the country’s natural resources (forests, wildlife, and their related ecosystems), in line with the Abu Dhabi Economic Vision 2030 . Barari holds international standards certificates in quality, environmental protection, and health and safety management. Core services include: Forest and Wildlife Management, and Nurseries.

BARARI SAUDI ARABIA

Headquartered in Riyadh, Saudi Arabia, Barari is the Group's venture to provide its knowledge and expertise in natural resource management, in the Kingdom. It provides an array of services in sectors such as forest and wildlife conservation management, operation and maintenance, agro-environmental services, water resources and infrastructure, Eco-tourism services, waste management & renewable energy, landscaping, mangrove agriculture, and conservation of vegetation.

MAWARID SERVICES COMPANY LLC

موارد للخدمات

SOYL LLC

Powered by **Desert Control**

Soyl, formerly known as Mawarid Desert Control, is a Mawarid Holding Company powered by Desert Control. Soyl is leading the transformation of soil health and ecosystem restoration through advanced, sustainable solutions. Central to this innovation is Liquid Natural Clay (LNC), a breakthrough technology that improves soil structure, enhances water retention, and boosts nutrient availability, resulting in heightened productivity across various sectors.

In the field of agriculture, Soyl's LNC technology significantly enhances soil fertility and optimizes water usage, enabling farmers to achieve substantial yield increases while using fewer resources, even in arid climates. Beyond agriculture, Soyl plays a critical role in supporting sustainable landscaping, urban greening, reforestation, and environmental restoration by reducing water requirements and promoting healthier plant growth.

Soyl's mission is to Make Earth Green Again by tackling desertification and soil degradation on a global scale. By restoring degraded lands, conserving water resources, and improving long-term sustainability, Soyl empowers communities and businesses worldwide. Through innovative solutions, Soyl contributes to safeguarding the planet's most vital resources, ensuring food security and environmental resilience for generations to come.

MAWARID CENTRE FOR RESEARCH AND SCIENTIFIC LABORATORIES LLC

مركز موارد
Mawarid Centre

للأبحاث والمختبرات العلمية
Research and Scientific Laboratories

Mawarid Labs is a unique entity specialized in research and laboratory services relating to plant, water and soil, along with breeding, conservation and health management of rare and endangered wildlife & livestock species. Its research and diagnostic laboratories are equipped with state-of-the-art facilities, with specialized and well-trained staff. Identifying and implementing new technologies, products and innovations together with expert scientific advice when needed, enhances the company's business offerings for current & future clients.

MAWARID INTELLIGENT IRRIGATION TECHNOLOGIES LLC

MIIT aims to improve water use efficiency and save water while increasing yield through an integrated solution utilizing satellite imaging, AI and sensors. Specializing in cutting-edge solutions designed to enhance irrigation efficiency through innovative technology. We use a world-leading Agri technology, globally deployed, featuring unique AI capabilities for irrigation systems. The AI-powered system utilizes advanced algorithms that analyze live data from plants, soil, and meteorology sensors, translating it into irrigation recommendations and commands. A proprietary dataset of billions of data elements, collected over 1,500 growing seasons worldwide supports this. The unique algorithm analyzes the data to provide real-time, forecasted insights and irrigation recommendations based on plant stress, growth patterns, soil moisture, real-time and forecasted weather conditions. We combine the technology solution with a unique “one-stop-shop” solution providing the system upgrade, technology installation and centralized remote monitoring and control center for a full integrated solution that will improve your water use efficiency.

MAWARID INTERNATIONAL DEVELOPMENT COMPANY LLC

شركة موارد الدولية للاستثمار
Mawarid International Development Co.

Mawarid International Development Company (MIDC) is the strategic development arm of Mawarid Holding. We offer a truly holistic development service for our internal portfolio and select partners.

As a visioning and design team, we offer a turn-key solution through a delivery process that utilises Mawarid Holding subsidiaries integration models to maximise project potential. In short, we incubate ideas and transform them into a reality.

Our overarching mission is to create truly unique experiences that celebrate and enhance ecosystems.
